

## Peninsula Dog PAC Questionnaire

**1. Do you have a dog? If so, where are your favorite places to walk your dog?**

Yes. Quarry Park, hills by radar tower, flat top

**2. Do you support having some off-leash voice control dog walking access on some Coastside beaches and trails?**

Yes. Dogs need to be able to swim, train, run and exercise. In addition to voice control, the use of electronic collars should be recognized as dogs in control.

**3. Is there anything else you would like voters to know about your position on recreational dog walking access?**

Dogs need areas to be able to run and swim. Dogs and owners have gotten a bad rap as being blamed for runoff problems on local beaches. Fortunately, the myriad of wildlife around us is being recognized as significant contributors. To blame dogs for beach fouling, ignoring other sources, the local area would need to have more dogs per capita than any other area of the state coupled with owners that are less responsible than any other dog owner segment in the state.
